

# MOBILE HOTEL

---

## JUST ONE TOUCH AWAY

### NEW AND UNIQUE SERVICES CONCEPT

“Mobile hotel is new and unique services concept which allows quick and fast access to all necessary information about guest stay to their users, beside direct communication with hotel itself and hotel staff. From now on hotel staff and hotel guests can use their own smartphones for opening hotel / apartments electronic door locks. Beside that Mobile hotel supports mobile payment which makes payments of supported hotel services even easier than before. Mobile hotel potentially provides every hotelier competitive advantage on market.”

---

Technical realization of this project, including mobile application, is made by company Intersoft Technologies d.o.o., while mobile key service is developed by cooperation between Intersoft Technologies d.o.o. and Assa Abloy Hospitality which is worldwide leader in hotel access control.
